

流漆之美

The Art of Lacquer Marbling

Artist Portfolio

Berlin, Germany

漆艺的千年传承

A Tradition Spanning Millennia

大漆（Dàqī）

Natural lacquer from the sap of the lacquer tree (Toxicodendron vernicifluum). Used in China for over 8,000 years — one of humanity's oldest craft materials.

漂流漆（Piāoliú Qī）

Lacquer marbling adapts the ancient Suminagashi / Ebru floating technique using modern lacquer paints on water. Each piece is one-of-a-kind — the swirling patterns emerge from the interplay of pigment density, water tension, and the artist's hand.

From the black-lacquered ceremonial hats of the Warring States period to contemporary marbled fans — this art bridges tradition and spontaneity.

作品展示　Works

团扇　Rundfächer / Round Fans

Every fan is unique — patterns emerge from pigment, water, and intuition.

手工体验 Workshop

Immersive Cultural Experience

Hosted in traditional Hanfu attire, each workshop guides participants through:

- Color mixing & theory
- Water surface preparation
- Marbling techniques
- Dipping & transfer
- Drying & finishing

~20 min per piece. Suitable for all ages.

活动实况　Live Events

Markets, festivals, and cultural events across Berlin and Germany.

合作提案 For the Museum

What I Offer

Lecture — The Beauty of Chinese Lacquer Art

From ancient lacquerware in museum collections to the modern revival of marbling techniques. A visual, bilingual talk connecting heritage to contemporary craft.

Hands-on Workshop — DIY Lacquer Marbling

Participants create their own marbled fans or canvas items. All materials provided. Adaptable to group sizes of 10–50+. Duration: 1.5–2 hours including lecture.

Cultural Immersion

Presented in traditional Hanfu. Color palettes can be customized to complement the museum's collection or exhibition theme.
